

Dual Power Supply Adapter · DPS-12/48

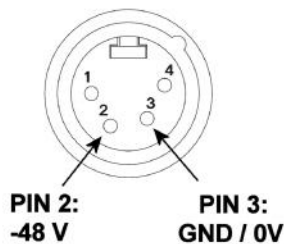

The DPS-12 (+12V) and DPS-48 (48V) kits add power supply redundancy to the Davicom units by allowing two power supplies to be connected in parallel, ensuring a fail-safe operation in case of supply failure.

**DPS-12 Male
connectors pinout**

**DPS-48 Male
connectors pinout**

The DPS can carry up to 3A of continuous current in each branch with very low (<0.5V) voltage drop. Total length is 30cm (12").

ELECTRICAL SPECIFICATIONS

Maximum current:	3A per branch
Inline voltage drop:	< 0.5V per branch
Max reverse voltage:	60V
